

ARREST THE LEAK WITHOUT OUTAGE

“REPAIR IT, DO NOT REPLACE IT”

THE SUPER FAST LEAK STOPPER

Extraordinary composite polymer treatment for arresting of Gas and Oil leaks instantly without outage

- ENECON is the Global Leader in advanced polymer technologies for Erosion/Corrosion & Maintenance
- A recognized world leader in advanced polymer technologies since 1990, ENECON® has pioneered unique coating systems for industries including: Electrical.
- ENECON products provide commercially proven and cost effective repair solutions for your machinery, equipment and plant structures damaged by erosion, corrosion, cavitation, wear, impact, abrasion, chemicals, hydrostatic pressure, etc.

LEAKAREST MECHANIC REPAIR KIT - SUPER FAST LEAK STOPPER

This is a two component, 100% solids, high performance polymer composite that can be used to arrest & making effective repairs to all types of leaks in pipes tanks and equipments which must be returned to service very quickly or where shutdowns are not possible.

This has an extremely fast initial set time making it the ideal material for stopping the flow and effectively plugging active leaks.

Each kit contains:

- 1 x 1 kg – DurAlloy - Machinable Metal Repair Compound
- 3 x 167 gm A-Packs – SpeedAlloy - Leak Repair Sealing Compound
- 1 x 250 gm - SpeedAlloy QS - Stop active leaks Compound.
- 2 mixing boards, 2 mixing knives, 2 applicators, 6pcs (3 in x 3 ft) reinforcement tape, 1 roll of sandpaper, alcohol wipes, latex gloves.
- All packed in a handy tool box with all necessary accessories

These extraordinary polymer systems are the result of years of research and development work that began with the first epoxy slip-resistant deck coatings approved by the U.S. Navy and the first products approved to the Department of Defence Specification C-24176 for hull fairing / smoothing

A Package consisting of 3 components which dries within 5 minutes and which vulcanizes within 30 seconds to a Minute.

High Performance Polymer Composite for resurfacing and protecting all types of fluid flow components from aggressive erosion and corrosion damage.

- Apply by Brush, Roller or Flexible Applicator
- Requires No Heat
- Unlimited Shelf Life
- 100% Solids
- Safe & Simple to Use
- Repair Kit for Gas and Liquid leakage
- It is also very good when it comes to arresting oil leakages.

Applications

- Arresting Oil Leakages in Power stations
- Arresting of SF6 Gas Leakage
- Oil Leaks at Ct's
- Helps in online arresting of any kind of leaks
- Pumps
- Cracked or holed casings and blocks
- Scored hydraulic rams

Will bond to virtually any rigid surface.

No heat is required. Materials are ideal for areas where flammable liquids are present.

All products have an indefinite shelf life- keep on hand for emergency repairs!

Manufactured by ENECON USA with 25% Make in India Component along with application support
